

How to notify the NDIS Commission about a reportable incident

As a registered NDIS provider, you must notify the NDIS Commission of all reportable incidents (including alleged reportable incidents) that occur (or are alleged to have occurred) in connection with the provision of NDIS supports or services you deliver, even where you have recorded and responded within your own incident management system.

Registered NDIS providers should use the [NDIS Commission Portal 'My Reportable Incidents'](#) page to notify and manage all reportable incidents.
